## PROFILE

Computer Engineering student. I consider my self a responsible and orderly person. Enthusiastic front-end developer with a keen eye for design and a strong proficiency in HTML, CSS, and JavaScript. Seeking to leverage my creativity and coding abilities to deliver engaging user experiences and contribute to cutting-edge web development projects.

## SKILLS

Web Development : HTML, CSS, JavaScript, NodeJS

Database : SQL

Programming language : Java, Python

Tools : Adobe illustrator, Adobe XD, Figma

Other Interests : UI-UX Design, Graphics Designing

## PROJECTS

- Personal Portfolio Website Using HTML, CSS & JS.
- Designed and developed a user-friendly furniture app UI.
- Weather Web Application, Which is developed using HTML, CSS, and JavaScript, and it makes use of the OpenWeather API for weather data retrieval.
- Spotify clone website with a strong emphasis on front-end development. Using modern web technologies such as HTML5, CSS3, and JavaScript, I designed and implemented an intuitive and visually appealing user interface.
- Developed a classic snake game using Python and Pygame library.

## PARTICIPATION

### Participated in Smart India Hackathon 2022

Where I and My team learned about teamwork, idea selection, document preparation, group discussion, and problem-solving skills also I have Designed and created project presentation (PPT) for collaborative team effort, showcasing project goals and outcomes effectively.
